SESSIONS:

- Session 3 July 16 – July 19
- Session 4 July 23 – July 26
- Session 5 July 30 – August 2

Participants will have daily hands-on experiences with farm animals, arts & crafts, hay rides, sheep shearing, collecting eggs, wood working, strawberry & blueberry picking, and more. Each week follows a similar format and schedule, yet varies with the crops and weather.

As active junior farmers, participants will learn about crop production right on the farm with activities including planting, harvesting, working cooperatively in groups, learning about science and nutrition, and creating art and stories inspired by farming. These unique experiences will leave a lasting impression on your child.

Space is limited to ensure a low child to adult ratio.

Completed applications with full payment will be honored on a first received basis.
